"Come Together" for Autism Awareness...

Each year, more and more Staten Islanders are diagnosed with autism spectrum disorders. To raise awareness of this growing issue, Borough President Molinaro established a round-table committee with Staten Island's leading special needs organizations. Each year, they host an annual event to help raise awareness and together they published the Borough's first autism resource guide. Through the sponsorship of Northfield Savings Foundation, this year's Beatles Blast is dedicated to autism awareness.

At Beatles Blast, there will be opportunities to support our local autism organizations.
